The Woods At Eagle Lake

The Woods At Eagle Lake yield over 45 acres of dedicated open space; instead of dividing all the land among individual lots, we created a preserve of open space, to be enjoyed by any one of the 40 households.

Without the burden of a large, high-maintenance lawn, family members can relax and enjoy the natural beauty of the entire preserve - its wetlands, ponds, trees, meadows and wildlife. You get the benefit of all those dedicated acres without the effort and expense of outdoor maintenance.

Every home has private access to their own private beach on Eagle Lake with a fishing dock and picnic areas in easy walking distance. Enjoy swimming, boating, fishing, socializing or just lying out in the sun.

A mile of nature-filled walking trails interconnected throughout the area provide for a delightful leisure exercise.

Neighborhood Location

Big Lake, MN 55309
